

ZF Honored by DAF Trucks

- **ZF receives four top awards for Outstanding Supplier Performance Management**
- **ZF received DAF's highest 'Master' award as well as a 'Leader' award and an 'Achiever' award**
- **'Leader' award represents the value of ZF's recent acquisition of WABCO**

Friedrichshafen. ZF has been honored with four highly coveted performance awards from DAF Trucks as part of its annual Supplier Performance Management (SPM) Program. Evaluating product development, operational support and business alignment, the awards recognize excellence across key areas including product innovation and continuous performance improvement.

ZF received DAF's highest 'Master' title, one of only two awarded against competition from some 60 companies, for its leading clutch product. ZF also received DAF's 'Leader' award for its transmissions products as well as an 'Achiever' award for its damper and chassis modules.

ZF's new Commercial Vehicle Control Systems division, formed from its recent acquisition of WABCO, also added an overall performance 'Leader' award to the group's tally. For demonstration of value, DAF Trucks recognized WABCO's significant quality and performance improvements over the previous year, elevating the business from 'Achiever' to 'Leader – an award fewer than a quarter of DAF's suppliers received.

"We are truly honored to receive four top awards from DAF Trucks. They powerfully represent our passion and unwavering commitment to delivering the highest levels of performance as a top supplier in the commercial vehicle industry," said Wilhelm Rehm, Member of the Board of Management of ZF Friedrichshafen AG with responsibility for

ZF Friedrichshafen AG

ZF is a global technology company and supplies systems for passenger cars, commercial vehicles and industrial technology, enabling the next generation of mobility. ZF allows vehicles to see, think and act. In the four technology domains Vehicle Motion Control, Integrated Safety, Automated Driving, and Electric Mobility, ZF offers comprehensive solutions for established vehicle manufacturers and newly emerging transport and mobility service providers. ZF electrifies different kinds of vehicles. With its products, the company contributes to reducing emissions and protecting the climate.

ZF, which acquired WABCO Holdings Inc. on May 29, 2020, now has 160,000 employees worldwide with approximately 260 locations in 41 countries. In 2019, the two then-independent companies achieved sales of €36.5 billion (ZF) and \$3.4 billion (WABCO).
